

# ENTRANCE SYSTEMS PIVOT FRAMES

Make a bold statement and increase your homes street appeal with a Hume Pivot System. This assembled entry frame incorporates a heavy-duty pivot with quality fittings that allow the door to be adjusted during installation. Everything you need to make your grand entrance, perimeter seals included.

- Concealed Hydraulic Self Closer**  
 Adjustable closing speed control and soft-close allow for safe closing speeds and no slamming of your door. Hold open function at 90 degrees to create a generous entrance
- Perfect for Large Doors**  
 Heavy-duty pivot fittings to suit any oversized door from our extensive range of large doors
- Full Perimeter Seal**  
 Pivot systems have a full perimeter seal which improves energy efficiency and reduces noise
- Door Adjustment Hole**  
 Easily adjust your pivot without removing the door, so it is plumb and square
- Head**  
 Made of premium timber and designed to incorporate the pivot operating system
- Optional glazed sidelite/s or hiltite**
- Factory Assembled Frame**  
 Fully assembled and packaged ready for your home. Simply install and enjoy
- Stop Bead**  
 Fitted with perimeter seal, improves energy efficiency
- Bottom Seal**  
 A sleek aluminium bottom seal, designed with energy efficiency in mind
- Bottom Sill**  
 Solid timber sill looks sleek & elegant due to a top-mounted pivot mechanism

## HANDING OF PIVOT FRAME
